A2 ~~Chelate-forming~~ functional groups to be introduced into a molecule of the fiber~~a~~.

On page 10, ~~lines~~ 16-17, change "in a fiber molecule" to

A3 in a molecule of a natural fiber and/or a regenerated fiber~~a~~;

line 18, change "the fiber" to --these fibers--;

line 22, change "carbon" to --carbons--; and

From page 11, line 24 to page 12, line 1, change "any of natural fibers, regenerated fibers, and synthetic fibers can be employed" to ~~[-~~ natural fibers and/or regenerated fibers can be employed--.

On page 13, ~~delete~~ lines 7-10.

On page 14, ~~line~~ 8, change "into a fiber molecule" to ~~[-~~ into a molecule of a natural fiber and/or a regenerated fiber--.

A5 line 14, change "filter," to --filter can be obtained--;

line 16, change "directly with" to --directly,-- and change "group" to --group,--;

lines 17-18, change "formula (2), has a chelate-capturing capability." to --formula (2).--;

line 18, insert the new paragraph, ~~[-~~ The chelate-forming fiber having the introduced chelate-forming functional group ^{chelate-capturing capability} represented by the general formula (1) has a satisfactory ~~^~~ to

A6
ad metalloids ions. ~~is~~ followed by the phrase starting with "As shown in the".

On page 32, line 22, change "The type of base fiber" to ~~is~~ The type of natural fibers and regenerated fibers.

On page 33, line 1, insert --and-- before "viscose rayon";
lines 1-3, change "fibers; and polyamides, acrylic, polyesters, and other various synthetic fibers." to --fibers.--; and

line 5, change "base fibers" to ~~is~~ natural fibers

A8
and/or regenerated fibers.

On page 47, line 14, change "Cu, Zn, Ni, and Co each about 50 ppm" to ~~is~~ each about 50 ppm of Cu, Zn, Ni and Co.

A9
On Page 48, line 4, change "The use of the chelate-forming filter having both" to ~~is~~ By using a natural fiber and/or a regenerated fiber as a filter material and introducing a specific functional group having;

A10
lines 6-7, change "and a removing capability to insoluble impurities as a filter material" to ~~is~~ into the fiber molecule, the invention can provide a chelate-forming filter which;

A11
line 9, change "be treated to thereby" to ~~is~~ be

A12
treated. The use of the chelate-forming filter can ~~is~~; and
